- Large terrace
- 126m2 living space

There are still points to be determined , such as 2 or 3 bedrooms each with a en-suite bathroom or not, a terrace on the 2nd floor or not, etc. ...  
Each house has a very large terrace with a magnificent view of the Montagne Noire and ancient beams decorate the living room and 2nd floor.

The ideal layout would be two spacious bedrooms and a small guestroom, but it's all about the wishes of the buyers ...

The living area of both floors totals about 126 sqm per home.  
You won't regret taking the time to come and have a look.

The price is € 200,000, completely finished, key in hand. Exclusive VAT and notary fees.
