

La Orangery

The master of the house had stables for his horses; the mistress had its Orangery's for planting vegetables and flowers!

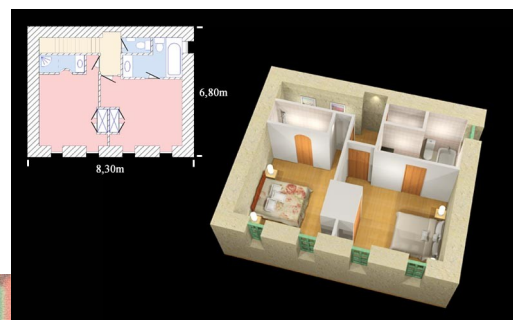

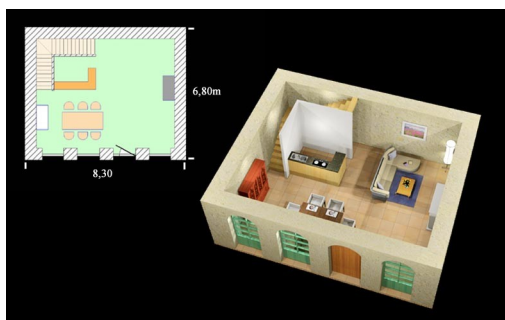

With a separate entrance, fantastically panoramic view and magnificent garden, this stunning renovation is around 1000m², making this property unique.

It indeed will be very comfortable; it will have two bedrooms and two bathrooms.

Having a garden that overlooks woodland and acres of fields it will be the most peaceful place on earth. The garden is 2300m², enough of a size for a pool for you to relax in those warm sunny days of summer.

No stone will be left unturned in the renovation of this idyllic house; the Orangery most certainly will be a gem.

€145,000 Euro (without renovation) / €308,000 renovations included (comes with 2300m² of gardens)

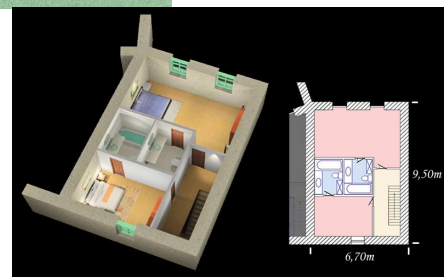

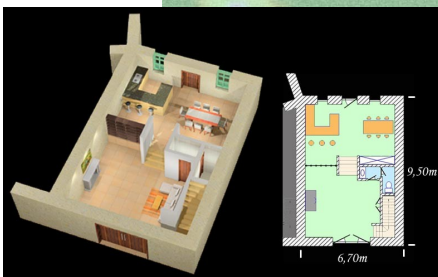

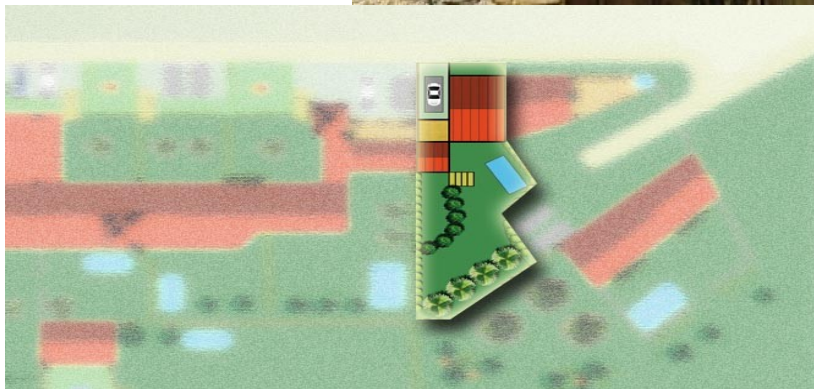

On the north side are a couple of car spaces, a beautiful terrace and a small library with a cellar underneath.

A swimming pool or large Jacuzzi with jet-streams is included, as indicated on the plan.

Changes can be made and plans can be "tailored" together with the future buyer.

It is on the top of the door of this house that the "fleur de Lys" can be seen behind a water pipe! Nobility was certain to have lived here.

€145,000 (without renovation) / €308,000 renovation included
